

PORTABLE AUDIO RECORDING SOLUTION FOR COUNCIL MEETINGS, DEPOSITIONS, AND MUCH MORE

High recording quality without the bulk.

JAVS Core Line offers an affordable, versatile, and portable audio recording solution that includes all hardware and software necessary to create, manage, and review a complete, permanent record. Core Line is perfect for council meetings, portable depositions, and much more!

NimbleMic

These high-quality boundary microphones feature a host of elements designed to enhance Nimble, including omni-directional, configurable feather-touch pushbutton, configurable pre-amp adjustment, and programmable record status indicators.

Nimble

A portable audio interface, Nimble uses only a simple USB to connect to the controlling computer. Nimble offers up to six channel recording and boasts audio visual record indication. A convenient carrying case makes this small audio device perfect for recording on-the-go.

NoteWise

This user-friendly audio recording software solution includes features like speech timeline, automatic notes, post-logging, and quick notes. With a visual indication of who is speaking, finding information in audio recordings has never been easier! Not just a recording solution, NoteWise also allows you to schedule recordings, review and edit existing schedules and recordings, as well as publish the recorded media for distribution.

Ready to learn more about how the JAVS Core Line can help you capture an accurate audio record for your justice needs?

Check out www.javs.com/coreline or contact us at 1-800-354-JAVS (5287).

For over 35 years, JAVS has believed it is everyone's basic, universal right to have an open and transparent society. The only way to preserve that right is through an accurate and accessible audio/video record of due process.

A True Technology Partner

JAVS is a true consultant and partner for your audio and video recording needs. We offer a turnkey solution that provides everything you need to capture a digital record.

This provides tremendous benefits including:

More efficiently work through large caseloads that need recording

Justice for all parties with the most accurate record

Cost savings by eliminating travel situations

No longer depending on someone to be physically present to transcribe recorded events

Our Expertise Includes

- Recording for both audio/video and audio-only
- Automatic recording and logging of proceedings
- Digital archiving of the record
- Computer network access to any recording
- Evidence presentation
- Touch control systems
- Assistive listening systems
- And much more

About Justice AV Solutions (JAVS)

JAVS, headquartered in Louisville, Kentucky, is the global leader in digital courtroom recording solutions integrated in over 6,000 courtrooms throughout the United States and across four continents. Clients around the world have trusted the JAVS solution to accurately capture, store, and publish the official verbatim record of the court for 35 years. From public address to remote arraignment to open source access, JAVS promotes truth and accuracy by preserving the record for tomorrow's justice system.
