

## The Affordable and Versatile Audio Recording Solution

### Accurate and Accessible Audio Recordings Made Easy

Our Select Line offers an affordable and versatile audio recording solution that includes all hardware and software necessary to create, manage, and review a complete, permanent record. JAVS Select Line is perfect for administrative hearing rooms, boardroom meetings, and much more!

### NoteWise

This user-friendly audio recording software solution includes features like speech timeline, automatic notes, post-logging, and quick notes. With a visual indication of who is speaking, finding information in audio recordings has never been easier! Not just a recording solution, NoteWise also allows you to schedule recordings, review and edit existing schedules and recordings, as well as publish the recorded media for distribution. Record up to 12 channels of audio right at your fingertips!

### P306

Weighing in at less than three pounds, the P306 audio device enables six audio channel inputs and four outputs. The P306 touts individual microphone identification, software mutable microphones, record indication, PA playback/review, microphone failure indication, and many other features!

### FlexMic

Not your average microphone, the FlexMic is designed to connect via Cat 5 to the P306 audio mixer. This high-quality professional boundary microphone offers customizable colored light indicators, a configurable, feather-touch pushbutton, and programmable microphone patterns.

For over 35 years, JAVS has believed it is everyone's basic, universal right to have an open and transparent society. The only way to preserve that right is through an accurate and accessible audio/video record of due process.

## A True Technology Partner

JAVS is a true consultant and partner for your audio and video recording needs. We offer a turnkey solution that provides everything you need to capture a digital record.

This provides tremendous benefits including:

More efficiently work through large case loads that need recording

Justice for all parties with the most accurate record

Cost savings by eliminating travel situations

No longer depending on someone to be physically present to transcribe recorded events

## Our Expertise Includes

- Recording for both audio/video and audio-only
- Automatic recording and logging of proceedings
- Digital archiving of the record
- Computer network access to any recording
- Evidence presentation
- Touch control systems
- Public address
- Assistive listening systems

## About Justice AV Solutions

JAVS, headquartered in Louisville, Kentucky, is the global leader in digital courtroom recording solutions integrated in over 10,000 courtrooms throughout the United States and across four continents. Clients across the world have trusted the JAVS solution to accurately capture, store, and publish the official verbatim record of the court for 35 years. From public address to remote arraignment to open source access, JAVS promotes truth and accuracy by preserving the record for tomorrow's justice system.
