

Publisher 7 is a user-friendly way to catalog and publish record files.

Cataloging and publishing session files has never been easier!

Use Publisher 7 to create a catalog of session files and then publish them to a new location, such as a CD or network drive. There are several publishing options available in this easy-to-use session publishing software. You can even choose whether or not to include private events and/or notes. What's more, you can view sessions before publishing!

Publisher 7 allows you to generate summary reports by date, session logs, and exhibit reports. For added security, this software uses the same user settings as all other Premier Line software.
